

Academic Transcript issued by Foshan University

School: School of Mechatronic Engineering and Automation Major: Electrical Engineering and Automation Student ID: 20220500131 Name: HuangShuo

Course Name	Type	Credits	Scores	Course Name	Type	Credits	Scores	Course Name	Type	Credits	Scores
2022-2023-1				Current Situation and Policy 3	Required	0.3	99	Power System Analysis	Required	2.0	68
Mental Health Guidance for College Students	Required	1.0	94	Digital Electronics Technology	Required	3.5	78	Current Situation and Policy 6	Required	0.2	99
AutoCAD Drafting	Required	2.0	83	Digital electronic technology course design	Required	0.5	84	Course Design of Electric Drive Automatic Control System	Required	1.5	83
Advanced Mathematics A1	Required	5.0	94	Probability Theory and Mathematical Statistics	Required	3.5	91	Labor Education 6	Required	1.0	87
The Process of Sinicization of Marxism and the Mission of Young Students	Limited Optional	1.0	90	Electrical and Electronics Practice	Required	1.0	86	Power Electronics and Motion Control Experiment 2	Required	0.5	87
College English 1	Required	4.0	78	Electronic Technique Experiment	Required	1.0	87	Design of Photovoltaic Technology Course	Required	1.5	88
Current Situation and Policy 1	Required	0.3	100	College PhysicsA2	Required	4.0	88	2025-2026-1			
Morality and rule of law	Required	3.0	89	2023-2024-2				Power Distribution Network Automation	Optional	2.0	72
Military Theory	Required	2.0	92	Principle and Applications of Single Chip Microcomputer	Required	3.0	87	Current Situation and Policy 7	Required	0.3	94
Physical Education 1	Required	1.0	87	Innovation and Entrepreneurship Foundation 2	Required	0.5	96	Electrical integrated course design	Required	4.0	88
Military Training	Required	2.0	91	Electronic Circuit CAD	Limited Optional	1.0	81	Power System Automation	Optional	2.0	91
2022-2023-2				Course Design of Principle and Application of Single Chip Microcomputer	Required	1.0	90	Comprehensive Experiment of Power System Analysis and Relay Protection	Required	0.5	89
Physical Education 2	Required	1.0	91	The technical foundation of computer software	Limited Optional	3.0	81	Productive Practice	Required	1.5	83
National Security Education	Required	1.0	91	Mao Zedong Thought and the Theory of Socialism with Chinese Characteristics	Required	3.0	85	Factory power supply	Limited Optional	2.5	81
Career Development and Employment Guidance 1	Required	0.5	90	Electrical Engineering Fundamentals	Required	2.5	96	Electrical Control and PLC	Limited Optional	2.5	72
Music Basics and Music Appreciation	School Optional	1.0	91	An Introduction to Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era	Required	3.0	88	2025-2026-2			
College English 2	Required	4.0	80	Electronic Circuit CAD Practice	Limited Optional	1.0	83	Current Situation and Policy 8	Required	0.2	100
Complex Variable Function and Integral Transformation	Required	2.0	89	Physical Education 4	Required	1.0	91	Graduation Project / Dissertation	Required	8.0	83
Metalworking Practicum	Required	1.0	70	Design of Electrical Engineering Basic Course	Required	1.0	87	Blank Here Below			
College Physics 1A	Required	4.0	66	Current Situation and Policy 4	Required	0.2	96				
Advanced Mathematics 1A2	Required	6.0	97	2024-2025-1							
Current Situation and Policy 2	Required	0.2	90	Current Situation and Policy 5	Required	0.3	93				
Linear Algebra	Required	2.5	78	Automatic Detection Technology and Automatic Instrument	Optional	2.0	71				
Circuit Principle Experiment	Required	0.5	84	Measurement Technology Experiment	Limited Optional	0.5	86				
China Modern and Contemporary History	Required	3.0	83	Power Electronics Technology Course Design	Required	1.0	86				
The Dog and Cat Breeding (Online Teaching)	School Optional	2.0	96	Motor and drag Foundation	Required	2.5	85				
Fundamentals of Programming	Required	2.5	81	Principle of Automatic Control	Required	4.0	90				
Computer simulation technology	Limited Optional	2.0	93	Power Electronics Technology	Required	2.5	88				
Circuit Principles	Required	4.5	73	Career Development and Employment Guidance 2	Required	0.5	97				
2023-2024-1				Power Electronics and Motion Control Experiment 1	Required	0.5	86				
College Physics Experiment B	Required	1.0	91	2024-2025-2							
Basic Principles of Marxism	Required	3.0	89	Design of Power System Relay Protection Course	Required	1.5	91				
Innovation and Entrepreneurship Basics 1	Required	0.5	93	Power System Analysis	Required	2.0	75	GPA: 3.48			
Physical Education 3	Required	1.0	86	Comprehensive Experiment of Power System Analysis and Relay Protection	Required	0.5	86	Total Credits: Required 134 Optional 6			
Course design of Analog Electronic Technology	Required	0.5	87	Electric Power Drive Automatic Control System	Required	2.0	73	Limited Optional 15.5 School Optional 3			
Art Theory and Practice	Limited Optional	2.0	78	Photovoltaic Technology	Required	2.0	83	Total Credits Obtained: 158.5			
Analog Electronics Technology	Required	3.5	89	Power System Relay Protection	Required	2.0	92	Percentage(Required and Limited Optional): 85.09
